EDUCATION WITH A CHRISTIAN PURPOSE

Wednesday, May 24, 1961

## Reed, Smith in Baccalaureate And Annual Sermon Sunday

The annual Baccalaureate will be held this Sunday at 10:30 a.m. in the College Church of the Nazarene. The class of 1961 will hear Dr. Harold W. Reed deliver his 12th annual baccalaureate address at that time.

According to R. L. Lunsford, publicity correspondent, it is traditional for the president of Olivet to bring this message. Last year a book was published titled **Committed to Christ** which contained eight of these addresses.

The Annual Sermon will be given Sunday evening at 7:30 a.m. in College Church by Dr. Timothy Smith, chairman of the department of history at East Texas State Teachers College.

An ordained minister in the Church of the Nazarene, Smith received his bachelor's degree from the University of Virginia, and a Ph.D. in History from Harvard University. His doctoral thesis, **Revivalism and Social Reform**, was published in book form and received the Brewer Prize

Timothy Smith

in Church History.

Smith has been chairman of the department of history at Eastern Nazarene College and pastor at the Boulder, Colo., Church of the Nazarene.

At the present time Smith is writing a "History of Education" on a research grant supplied by the Ford Foundation.

## Commencement Concert to Feature Soloists, Choirs

The forty-eighth annual Commencement concert will be presented in the Birchard Gymnasium on May 31, 1961, at 8:30 p.m. Participating will be soloists who auditioned and were chosen by the music faculty.

The forty-piece symphony orchestra will be accompanying each soloist.

The soloists and their selections are as follows: Ruthmarie Eimer, "Pace, pace, mio dio" from "La Forza del Destino," Verdi; Karen Swine-

hart, "Amour viens aider" from "Samson et Dalila," Saint-Saens; Shirley Cox, "Care nome" from "Rigoletto," Verdi; Tom Thompson, "Vision fugitive" from "Herodiade," Massenet; Dixie Brown, "Lo, Here the Gentle Flock," Bishop; Duane Askew, "Concerto in A for Clarinet and Orchestra," Mozart; Marilyn Bickel, "Concerto No. 21 for Piano and Orchestra," Mozart; Robert Stiles, "Concerto for Bass tuba and Orchestra," Vaughn-Williams.

## Graduates Total 135; Commencement is June 1

According to the Registrar's office the class of 1961 includes 135 graduates. June 1 will find 105 receiving degrees, while 30 will obtain their diplomas in August after completing hours in summer school.

There will be 44 Bachelor of Arts degrees conferred next Thursday, and 57 Bachelor of Science degrees. Four Bachelor of Theology degrees will be given.

At the present time 14 students will be eligible to obtain the B. A. degree in August, while 16 will be eligible for the B.S.

W. T. Purkiser

### PURKISER TO BRING ADDRESS

Olivet's 48th annual commencement exercises will be held at 10:00 a.m. Thursday, June 1, in the Birchard Fieldhouse. The program will begin immediately following the procession of the graduates from Burke Administration Building.

Music for the event will be supplied by the Orpheus Choir. Included on the program will be presentation of the Senior Citizenship Awards, announcement of the Greene Scholarship winners, and the conferring of the Doctor of Divinity degree upon Rev. Fred Hawk, pastor of the First Church of the Nazarene in Indianapolis, Ind.

Commencement speaker is to be Dr. W. T. Purkiser, author and educator in the Church of the Nazarene. Purkiser was recently elected editor of the Church's **Herald of Holiness**.

From 1957 to 1960 Purkiser was professor of English Bible at the Nazarene Theological Seminary. Prior to that he was with Pasadena College for 20 years as professor of philosophy, dean of the college, and from 1949 to 1957, president.

Purkiser is widely known in evangelical circles because

## Homecoming Commission Sets Nov. 10-12 Dates

The 1961 Homecoming Coordination Commission has been meeting and tentative plans for next fall's event have been drawn up, according to Jan Bearinger, secretary of the commission.

The date for the Homecoming weekend has been set for Nov. 10, 11 and 12 with a basketball game between the "O" Club and the Alumni scheduled for Friday evening, Nov. 10. The annual Alumni Concert will be presented Saturday night.

Tentative plans call for the revival of the all-school smorgasbord which will be held following the basketball game.

According to Miss Bearinger, the Commission is planning something new for this year and titling it the "Educational Frontier." This will be conducted Saturday morning and will consist of classes during which time Alumni will have a chance to sit under some of their former professors and catch up on

academic affairs.

The Homecoming Commission was selected earlier in the semester by Dr. Reed and is composed of members of the faculty and student body.

Included on the Commission are: Prof. Paul Schwada, chairman; Dr. Ralph Perry;

(Continued on Page Eight)

## Investiture Day Brings Transfer of Offices

In keeping with a long-standing tradition, this Friday, the last chapel service of the academic year, will be

an investiture program. At this time the graduating class will turn over their rights and dignity to the present junior class, and the new student council officers will be installed.

Investiture Day will begin at 8:00 a.m. when the seniors will meet with the faculty for a communion service conducted by Rev. Forrest Nash. At 9:00 a.m. the faculty and graduates will form a procession and be led into the chapel service at 9:30 by flag bearers Robert Stevenson, Evelyn Dorsey and Preston Figge.

In addition to the formal inception of the new student

### Alumni Day Set For Next Wednesday

May 31 has been designated as Alumni Day, according to a report from the office of Norman Moore, alumni executive secretary.

Beginning the activities of the day will be a breakfast to be held in Miller Dining Hall. Following this will be the spring business meeting of the association's governing board, the Board of Directors. This group will hear the annual report of the officers, and will discuss plans for the ensuing year.

At 2:00 p.m. the Alumni Association's business meeting will be held. At this time,

## A.S.B. Investments Utilize Idle Money; Stock Value Up

According to David C. Reedy, Associated Students treasurer, the stock that was purchased for the student union building fund last November has appreciated in value approximately 28%. The original investment of \$1,103 is now valued at \$1,410.

The student council authorized the purchase of 60 shares of California Electric Power at \$18 a share. Since the purchase of the stock, the build-

ing fund has been credited with two quarterly dividends of \$.21 per share and the value of the shares has risen to \$23.50.

A plan to purchase 90-day U.S. Treasury Notes was announced from the Associated Students office. This is the third measure used this year to utilize idle funds of the student organizations. It is estimated that this will produce \$200 yearly in interest income.

## Dorsey, Stevenson Are College Queen, Marshall

Leading the Investiture, Baccalaureate and Commencement processions for the class of 1961 will be Robert Stevenson, college marshal, and Evelyn Dorsey, college queen. Stevenson qualifies for this position by having the highest cumulative grade average among men students in the junior class. Dorsey has the highest average among the women students.

As college marshal, Ste-

venson will carry the American flag. He has a grade point average of 3.670, and is the son of Mr. and Mrs. Charles Stevenson of Russell, Iowa. Mrs. Dorsey will bear the Christian flag and has a grade average of 3.988. She is originally of Dayton, Ohio, and now resides in Bourbonnais with her husband, Lincoln.

A third flag bearer will follow Stevenson and Dorsey. Preston Figge, ASB president-elect, will carry the Olivet flag.

Robert Stevenson, college marshal, demonstrates how the flag should be carried to Evelyn Dorsey, college queen.

## WAKE UP, AND LET THE TRUTH SET YOU FREE

... Tho' life may lead us far apart, we as graduating seniors will always have a touch of warmth in our hearts for the years we have spent at Olivet. In the years to come, as we look back, we will recall with a bit of nostalgia not only the moments of personal triumph here, but also the various situations in which our foundations have been shaken to the very core. These circumstances taken together, under the guidance of Olivet's Spiritual, Academic, and Social emphases, have given us a rock upon which we can build a lifetime of service to God and to our fellow-men.

At this point a question is posed. What criteria make an individual best prepared to serve God and man?

He must first be completely dedicated to God through Christ Jesus. I need not elaborate on the positive implications in this area.

Secondly, he must be alert. Alert to what? Alert to what is happening in the world about him and alert to the various forces that mold those situations. The problem is that too many Nazarene Christians are afraid of or apathetic to issues that might suppress or run contrary to their own traditional ideas, or that involve mental exertion.

Three weaknesses are the result of the above attitudes. And they, in the long run, will impair the effectiveness of an individual's Christian witness and the Church's witness.

In the first place some traditional ideas are reactionary and not in the least applicable to the present situation. For example, one might ask: What does the question of test-tube life have to do with that of evangelism? Fifty years ago there would have been no correlation. But today there is a very vital one. Agnostics are going to be cornering Christians with questions, and unless the Church through education wakes up many Christians will not have intelligent answers. Why? (And the test-tube life question is merely an example.) Because we are not encouraged nor do we take the initiative to intellectually weigh the issues involved in current thought and problems. We should organize buzz groups and discussion sessions in and out of church and classes to keep us alert to the times.

In the second place too many Christians of this type have a tendency to "pocket" ideas that are contrary to traditional thinking. Obviously this person's is a weak spiritual foundation. He either does not have enough faith in his own convictions to counterattack what he believes to be heretical thinking, or he does not have enough fortitude to consider the new thought discerningly in the light of possible revealed truth.

Thirdly, unless we acquaint ourselves with recent developments.

(Continued on Page Eight)

## AN EXPANDING MATTER (Or A Matter of Expansion)

When we were babies life was simple and our needs were few; life revolved around the mother who held us in her arms. As we became aware of ourselves as distinctive individuals, it was mother who played an integral part in that recognition of selfhood. Through her we developed a picture of ourselves.

With physical and mental growth our horizons broadened. Our self was no longer confined to the home but it was made more complex by the encounters with teachers, family friends, and playmates. It was our relationship with these people and their attitudes toward us that combined in the development of our picture of what the psychologist calls, our "expanding self."

By college years, barring supernatural change, the self-picture is, for all intents and purposes, complete. As babies, when mother expressed her approval we were happy. During the years of growth, the acceptance of others and the mastery of life's situations contributed to our own self-recognition. As college students, the self should continue to expand, if we have pictured ourselves as "expanding selves."

There are some who cower at this challenge and return, actually or figuratively, to the relative security of mother's apronstrings. Others consign their lives and their influence to the sphere of life where they are most easily accepted. A few accept the challenge of new ideas and devote themselves to a constructive dialogue with real issues. It is this last group that become expanding selves in an expanding world; the others do not live, they merely exist. The point is this: It is now possible in this fast-moving age to become out-of-date in a matter of a decade. This applies to any area.

Let's be more specific. It is almost redundant to talk about our smaller world but unless we can get a firm grasp on the fact that it does make a tremendous difference to us what the president of Brazil thinks about Fidel Castro, it may be too late to matter.

This is only an instance that could be multiplied over and over. We have a responsibility to be informed; public affairs are our affairs. This is not just another area of peripheral interest; it is our history in the making. The question is this: Are we going to attempt to make a valuable contribution?

(Continued on Page Eight)

## Christian Concepts

by Wes Robbins

It was my privilege to attend recently a Conference on the Christian Ministry at Andover Newton Theological School in Boston. This was one of my first opportunities to get a first-hand view of what other Christian groups are emphasizing in their attempts to spread the Gospel of Christ. The key word of the conference was relevance—the importance of making the Christian message speak forcibly to modern men and modern problems.

Here are a few examples. In the keynote address by Dr. Ronald Wells, Director of the American Baptist Division of Christian Higher Education, the Church as we know it today was pictured as living in luxury, accepted, and in competition with other social organizations. But he pointed out that the Gospel is still essential, in spite of the laxity of the Church. People need it more than ever, and the Church may be redeemed to proclaim it. Dr. Wells then pointed out that the Church as it can be would be characterized by three things: (1) A stalwart preaching of the Gospel, the Word that changes and transforms the person and brings a right relationship between a man and his God; (2) A rugged prophetic voice, that does not fear to attack social injustice, that comes down out of the pulpit and into human relationships, that lives

## Let's Explore The News

by Jerry Ferree

### People in the News

The name Moise Tshombe once again has made news headlines. This time, however, he is not swinging the ax, he is facing it. If you recall Tshombe headed the wealthy Katanga province which seceded from the Congo when the fight between Joseph Kasavubu and Patrice Lumumba was raging.

With Lumumba dead and most of the world recognizing the Kasavubu government, the squeeze has been put on the Katanga province to unite with the Congo. The best way to start is by punishing the instigator. Tshombe has been charged with four major crimes—the murder of Lumumba, high treason, counterfeiting money, and theft of military equipment. The first two are punishable by death and the remaining by hard labor and a long prison sentence. Perhaps this is not the most dramatic method of dealing with political crimes but it is effective, to say the least.

Former vice-president Richard Nixon made his debut a few days ago. He gave two speeches in the Democratic

## Olivetians Speak . . .

## Letters To The Editor

Dear Editor:

I have noticed that it is easy to lose touch with the new and crucial problems. This happens by (1) isolationism and (2) stifling controversy. The first limits the provided answers to only the select few. The second indicates a fear to undergo intellectual scrutiny.

Eliminating all controversy bothers me more than isolationism, for diverse opinion should strengthen faith in our objective. If not our objective is not sound enough to encourage followers.

Those whose objective is to produce a certain kind of effect which they claim is Christian instead of presenting an historical, loving Christ are sadly mistaken. I can easily see why they are on the defensive when something new or challenging arises, for they cannot limit God to any set pattern and have a sound basis for belief.

The one purpose that is worthy of followers, is obedience to God's will, regardless of its diversity of expression. God's will is that we live a meaningful and creative existence found only by uniting with a living and personal Christ.

There are many who can criticize leadership for not having better solutions to the problems, but few who can offer better answers. The reason for this is that we like to compare ourselves with others in our ability to see problems, but not in our exertion of energy. If we are to be obedient to God's will, we must not only admire the truth, but we must give our very best to it.

Then let us stop scrapping over individual opinions that are only on the periphery of the battle, and get interested in God's war and His concern that we create meaningful new solutions to the devil's changing tactics.

Let us be workers not defending God's will but workers strengthened and supported by it. Thus we need not fear opposition when we take rightful place as workers and Christ takes the leadership in building His church.

A. ROY SMITH

Dear Editor:

In the last issue I was alarmed to read some of the remarks given in reply to the question, "What Should Be Done to Eichmann?" I have read that, although much evidence is already available, the trial is expected to run from 60 to 120 days. No doubt there is more evidence which needs to be considered

stronghold of Chicago. Both were typical Nixon style—criticize much; offer few proposals or plans of action; add some humor and broad generalizations for the press; then wave your arms in the Eisenhower (or was it Grotthaus) fashion while everyone cheered. Nevertheless, I still think Nixon would have been the man for foreign affairs.

### Events in the News

Did you know the U. S. Information Agency had a plan ready to go if the man-in-space shot failed? That's right! We had a secondary plan which would have surely

ed before final verdict of "guilty" is pronounced. My first thought is, how did those who readily advised what should become of Eichmann arrive at his guilt before the court did?

Assuming Eichmann's guilt, however, what should be done? One said, "feed him to the rats," another felt that he should be tortured intensively and at length. Such remarks savor strongly of judgment and revenge.

Proverbs 20:22 reads, "Say not thou, I will recompense evil; but wait on the Lord, and He shall save thee." Stronger counsel is given in I John 3:15, "Whosoever hateth his brother is a murderer: And ye know that no murderer hath eternal life abiding in him."

St. Paul approaches the same truth from another viewpoint in Romans 13:10, "Love worketh no ill to his neighbour: therefore love is the fulfilling of the law."

There is a basic theological question involved in this matter. No one is without sin for we all have sinned. I can only draw one distinction between Eichmann and myself. Eichmann has rejected Jesus Christ and I have accepted Him. The greatest evil of which any person is capable is that of rejecting Jesus Christ as his Saviour. Having done this, there is no more heinous crime against God or man which you can commit.

Since we are all guilty of the most heinous crime possible we do well not to cast "the first stone."

Of course, we have a responsibility to society to protect others. Torture can make no contribution here. Death would perhaps save society from further association with the criminal, but is God not still capable of redeeming him? It might require time for the Holy Spirit to soften Eichmann's heart, but Christian love manifested in mercy might be a good start, whereas being fed to rats might be less convincing.

St. Paul testifies to Timothy that he was the chief of sinners (having been a murderer of Christians), but he obtained mercy which was exceedingly abundant through Christ. I believe St. Paul has a message for us today. If I should meet Eichmann in Heaven I would want to say, "I knew it was possible and I prayed for you." When you pray for a man's soul it's difficult to consent to his death before he has found peace with God.

JOHN P. KIGER

sounded like excuses if the shot failed. However, since it didn't we place the hero, Alan Shepard, before the world exactly like the Russian's did Yuri Gagarin. If Shepard would run for the presidency right now, he would, no doubt, beat both Nixon and Kennedy.

In the meantime, the "failure plan" which expounds democracy and a free society, sets quietly in the background while Kennedy and Co. act like children by telling the world that we want to race Russia to the Moon. Why?—I don't know.

# GLIMMERGLASS

PUBLISHED BY THE STUDENTS OF OLIVET NAZARENE COLLEGE, KANKAKEE, ILLINOIS

LOWELL THOMAS

Editor-in-Chief

LEON JAMES

Business Manager

Associate Editors: David Bowman, Religion; Marilyn Kremer, Academic; Sylvia Tribble, Social; Holland Lewis, Sports.

Prentiss Tomlinson, Faculty Sponsor; Dr. Leroy Brown, Prof. Floyd B. Dunn, Miss Margarita Sawatzky, Literary Critics.

## Editors and Business Managers Of Publications Are Elected

At recently held elections for publications AURORA and GLIMMERGLASS, four more class A offices were filled for next year. Elected as editor and business manager respectively of the AURORA were Seldon Marquart, sophomore of Bourbonnais, and Ernest Huserick, sophomore of Hobart, Ind. Editor of the GLIMMERGLASS for next year is Don James, junior from St. Louis, Mo., while business manager is Jim Hutchinson, junior, of Chicago.

Seldon was sports editor of his high school yearbook and has been on the AURORA staff for two years. This year he was college editor. He has also been program chairman of the Public Affairs Club.

Huserick was assistant business manager of the AU-

RORA this year, and was also circulation manager for the GLIMMERGLASS. He is also public relations chairman for the Gamma Society.

Both Marquart and Huserick are History majors.

Don James was assistant editor of the GLIMMERGLASS this year. He was treasurer of his sophomore class, member of this year's social committee, and on the 1961 Homecoming Commission. His major is psychology.

Hutchinson was assistant business manager of the GLIMMERGLASS this year. He was also president of the junior class and president of the Zeta Society. He is a chemistry major.

As editors, Marquart and James will automatically serve on the student council next year.

The newly elected publications officers are: Don James, editor; Jim Hutchinson, bus. manager — GLIMMERGLASS; Seldon Marquart, editor; Ernie Huserick, bus. manager — AURORA.

## Alumni Spotlight

James Keys

New Castle, Indiana was the birthplace of our spotlighted alumnus, James Keys. He was born March 29, 1919 into the home of a Chrysler Corp. engineer.

Mr. Keys was converted and joined the church at the age of 12. While a young boy, it was his desire to become a commercial artist until he was influenced by a high school teacher to become an industrial engineer. After high school, he took an I.C.S. course in engineering, and worked from a draftsman to head of the Engineering Dept. of New Castle Products.

"After the war, I decided I wanted to become an architect, and was influenced by my brother and mother to attend Olivet before going on to the University of Illinois to get my degree in architecture. The Christian background which I have received, has been extremely valuable. I would recommend that any student who cannot obtain a degree in the field of his choice attend Olivet first, (Continued on Page Seven)

## Elect 12 Seniors to Phi Delta Lambda

A total of 12 Olivet seniors have been elected to Phi Delta Lambda, the Nazarene honor society, this year. The purpose of this organization is (1) the promotion of scholarship and friendly relations among students and graduates of the colleges of the Church of the Nazarene; and (2) the stimulation and maintenance of high ideals of learning, character, and Christian service.

The chapters of Phi Delta

Lambda are known as Alpha, Beta, Gamma, Delta, Epsilon, and Zeta. Gamma, is Olivet's chapter.

Election to membership in each chapter is based upon the standards set by the local college for graduation with honors, provided that during a quadrennium election to the chapter shall not exceed 15 percent of the total graduation. In the election of members consideration is given to qualities of Christian character and leadership ability.

Students elected this year and their grade averages are: Bonnie Brewer, 3.549; Edith Brewer, 3.362; Roberta Claussen, 3.693; Samuel Dunn, 3.634; Alan Fairchild, 3.444; Willard Giselle, 3.552; Darel Grothaus, 3.613; Marilyn LaVee, 3.530; Phyllis Lukehart, 3.400; Wesley Robbins, 3.895; and Gladys True, 3.431.

## Phi Delta Lambda Banquet Is May 30

Rev. Millard Reed, class of '55 and former student body president, will be the speaker at the annual banquet of the local chapter of the Phi Delta Lambda, Nazarene honor society. It will be held Tuesday, May 30, at 6:30 p.m. in the Mural Room.

Included on the program will be the recognition of the new members from the current graduating class. Dr. Reed, as special guest, will present each one with the society key.

Approximately 60 are expected to attend the affair, while the local chapter has a total of 268 members reaching back to the class of 1929.

Officers for the local society are elected each year and announced at the banquet. Officers for this year are: Gardner Walmsley, pres.; Ruth Peters, vice-pres.; Jewell Flaughter, sec.-treas.

As Olivet's chapter is one of six honor societies located at the various Nazarene Colleges, it is interesting to note that two Olivet faculty members are national officers. Dr. Willis Snowbarger is the national president, while Prof. Paul Schwada is the secretary.

## New Faculty Member Added to History Department

by Jean Davis

Bill Isaacs, now at the University of Illinois, will begin this fall as an assistant in the department of history. Isaacs will be teaching in Dean Snowbarger's place, according to the Dean's office.

With his assistance two areas of the department will be strengthened, general history and social sciences. Two new courses will be offered, ancient history and constitutional history for pre-law students.

Isaacs received his A.B. degree from Olivet in 1958, graduating "summa cum laude" with a grade point average of 3.965. Having received his Master's in 1959, he is now working on his Ph.D. which will be completed in 1963. This fall he plans to carry a nine-hour teaching load.

The new faculty member received recognition in Who's Who Among Students, Phi Delta Lambda, Phi Alpha Theta and was recipient of the Nazarene Scholarship, Greene Scholarship, and U. of I. Scholarships and fellowships.

Isaac's wife was formerly

## Larson to Take Sabbatical Leave

Mrs. Naomi Larson, Chairman of the Piano Department and professor of piano and voice, is now preparing to take her sabbatical leave after teaching at Olivet for twenty-six years. She plans to begin her leave early by joining the Olivet European tour and when the tour is ended, she will go to London, England, where she will make her quarters.

Among her planned activities, Mrs. Larson plans to study voice at the Royal Academy of Music under Eva Turner, world renowned vocal coach. She also will study piano and choral techniques and advanced conducting under some outstanding choralist.

"I am going to drink in all the concerts, operas, and symphonies that I can. I'll really be in the height of my glory."

After returning home, which will be around the first of December, Mrs. Larson is looking forward to hearing the Messiah presented at ONC, this time as a spectator.

The remainder of December and January will be spent traveling and doing as she pleases, after which she will resume her teaching duties in the second semester.

Bill Isaacs

the secretary of the Dean's office. She will be teaching in the public schools in Mommence.

## Students With Special Interests Take Courses By Directed Study

by Rosemary Lamar

Olivet urges the superior student to make the most of his scholastic opportunities and to advance in accordance with his abilities. To give greater flexibility in the schedule and to provide for specialized studies, a student with a 3.0 grade point average and who has ranked in the upper quarter of his sophomore class according to the objective test in the field of his interest, may apply for directed study or for graduation with departmental honors.

Directed Study in the sophomore, junior or senior year is open to superior students

in most departments offering majors. In order to engage in directed study, a student must apply to his instructor for permission to pursue a subject of particular interest not already treated extensively in a regular course. On written approval of the instructor and the Dean of the College the student may register for from three to six hours of credit. The name of the applicant together with the plan of the course to be pursued, must be recommended by the head of the department in which the work is to be done to the Dean of the College for approval not later than the sec-

ond Friday after the opening of the semester.

Students doing directed study are: 1st semester: Charles Ulveling, Monty Lobb, Roger Kennedy, Gladys Frue, Howard Schmidt, Sam Cleare, Phyllis Lukehart, Dave Reedy, Marilyn Le Vee, Kenneth Roth. Second semester: Ronald Stevens, Kay Fiedler, Marilyn Baker, Engeline Duis, Larry Harshman, Roger Kennedy, James Bohi, Tom Thompson, Kenneth Roth, Phyllis Lukehart, Dave Lunsford.

Graduation with Departmental Honors is granted to (Continued on Page Eight)

## U. of I. Awards Fellowship to Holzhauser

Miss Donna Holzhauser, instructor of English, who has been on a leave of absence for graduate study this semester, was recently named "Fellow in Education" at the University of Illinois.

This fellowship means the remission of fees and \$750 per semester. Miss Holzhauser plans to take advantage of this award the first semester of next year. She will resume teaching the second semester.

Miss Holzhauser's graduate work is in English and education. She received her A.B. degree from Greenville College and her M.A. from the University.

## Business Office Reveals Proposed Improvement of Dining Hall

by Sharon Crabtree

With the increased student body at Olivet Nazarene College and the need for larger dining and food service area, the Board of Trustees was faced with the problem of providing adequate space for food preparation.

Consideration was given to building an addition east of the present kitchen and Mural Room, extending to the drive between the dining hall and the gymnasium. This area would be used for dining room services, such as now occupy the Mural Room. To speed up the food service, however, it would require the installation of an additional

serving line which could not be accomplished without major alterations and heavy expenditure.

Instead of the above plan, Mr. C. L. Henderson, business manager of the college, and the architect suggest the possibility of moving the bakery and salad preparation facilities to the basement under the dining room. This will require the installation of proper plumbing, electrical, and other service utilities, the building of two walls, and the leveling of the floor to provide an area of forty feet square or sixteen hundred square feet. The area will be (Continued on Page Seven)

# Personal Peeks

## Bearinger, Borders Head Dorms

Jan Bearinger, new W. R. A. president, points out Nesbitt Hall's communication system to Frank Borders, recently elected M. R. H. A. president for next year.

Friday, May 12, elections were held for the respective residence hall associations, W.R.A. and M.R.H.A. Elected president of the W.R.A. was Jan Bearinger, junior from Lapeer, Mich., while Frank Borders, junior from St. Louis, Mo., was elected president of the M.R.H.A.

While at Olivet Jan has been secretary of her class for three years, and served on the W.R.A. council last year and again this year. She has also been on the student tribunal and lyceum committee. This year she is on the

student council and is secretary of the Prayer Band.

This year Frank Borders is vice-president of the "O" Club, on the school calendar committee and a member of the M.R.H.A. council. He has been on the business staffs of the AURORA and GLIMMERGLASS, and has lettered in baseball, football and tennis. Frank is also the newly elected president of the Kappa Society.

As presidents of these associations, Jan and Frank will be members of next year's student council.

## Students Will Spend Summer in Various Ways

by Sylvia Tribble

"What are you doing this summer?" seems to be the \$64 question these days on campus. Olivetians, for the most part, have decided what to do with 98 days of vacation.

Like most college students, a majority will be working. These summer jobs are varied and a few even fun, but they all include discipline, work, and money (a little at least).

Students have found jobs in offices, banks, factories, hotels, restaurants, and stores. Many guys will be working out-of-doors on farms, pipelines, and construction. Some will be counselors, such as Nancy Earle, at summer camps.

A few students will be for-

tunate enough to have a real vacation. Florida, California, New York, and Canada are a few of those "far-away" places that will be seen.

The tour to Europe, under the guidance of Dr. Snowbarger, at the time of writing included 21, only one of which is a student, Ed Chapman. The others include faculty members such as Dr. and Mrs. Mitten, Mrs. Larsen, and Mrs. Ann Brown and residents from Kankakee taking the trip for extra credits.

Whatever YOU do this summer, remember that you are a representative of Olivet and that it will be judged by the standards you maintain. Use your influence for the most good, for both you and Olivet.

...BUT HAVE WE DONE ENOUGH?

## Juniors to Give Seniors A Picnic Next Saturday

This Saturday a picnic will be given by the juniors to welcome the seniors back from their outing to Starved Rock State Park. It will be held at Kankakee State Park with Larry Reinhart, junior vice-president, as chairman of the planning committee.

According to Reinhart, tentative plans call for games in the afternoon with the possibility of a baseball game between the two classes. Food for the picnic will consist of either a weiner roast or a hamburger fry.

Special features in the evening will center around the events of the senior trip.

According to Reinhart, all juniors and seniors are invited to this party, especially those who were unable to attend the Jr.-Sr. Banquet.

## News Briefs

The Greene Scholarships will be awarded to a freshman, sophomore and junior at the commencement exercises June 1.

The awards, which are contributed by Mr. and Mrs. Hilliard Greene of Chicago, are worth \$500 each.

The annual banquet of the Vikings Male Chorus will be held this Friday, 6:30 p.m. at White Fence Farm near Joliet. Haldor Reed, of California, son of Dr. and Mrs. Reed, will be the after-dinner speaker.

The annual student council steak fry will be held next Wed. afternoon at Kankakee State Park.

## Boyd Fees In Senior Recital

On May 27, 1961, Boyd Fees will be giving his senior recital at 8:00 p.m. in College Church and will be assisted by Mrs. June Shirkey Bryant.

Fees is a former resident of Bourbonnais. Early last summer he took a job as minister of music at the Trinity Church of the Nazarene at Oklahoma City, Oklahoma. Since that time he has taken courses at the Oklahoma City University, and these credits will be transferred to Olivet. This will enable him to graduate with his class on June 1.

Fees preferred to present his senior recital here instead of in Oklahoma City.

Among the selections he will be singing are "Di Provenza Il Mar" from "La Traviata," Verdi; "Within This Sacred Dwelling" from "The Magic Flute," Mozart; "Hear Me Ye Winds and Waves" from "Scipio," Handel.

Among the English songs are two numbers by Dougherty, "Across the Western Ocean" and "Blow Ye Winds."

Mrs. Naomi Larsen will be accompanying Fees.

## OPINIONNAIRE . . .

## Ideas Concerning Olivet

by Doris Kay Fiedler

### IDEAS CONCERNING OLIVET

How many times have you participated in a "bull session" where the world's problems were ultimately all solved? Probably you could not count these even if you used both hands and both feet. More specifically, how many times have you been in a group that actually arrived at some good constructive ideas and thoughts about the solution to ONC's problems?

Frequently, a student has an idea, but does not see himself in a position to do anything about it. He may think it is of minor importance and not worthy of carrying to the proper person or he may not know to whom he should relay this idea. Sometimes he forgets that he, too, is Olivet and is as much responsible for the continued growth and progress of ONC as are the administration heads.

This refusal to accept one's right of citizenship may be due to his general apathy or indifference or possibly a lack of understanding and awareness on the part of the student as well as on the part of the administration. Open your eyes and mind but don't close your heart seems to be an unspoken plea by those who believe that many responsible people are unaware that students definitely are concerned about the future of Olivet.

One way to help this is to bring your ideas out into the open and discuss them with others. In your leisure time this summer, don't just daydream but THINK and then plan how you can put your ideas to work next fall.

Some of the ideas expressed below can be taken care of in relatively short manner while others involve changes in attitudes and other more time-consuming efforts but are worthy of consideration.

**Holland Lewis:** I have thought of the possibility of a Sunday Evening Club after church. I would like to see it involve some social aspects but also an intellectual stimulation. I would like for this to be the basic thing in it. This might involve presentation of special student works or honor papers in areas such as theology, politics, etc. These could be used to stimulate discussion. This is one of the loose ends that is left hanging in the lives of Olivet students. This is the type thing that can be accomplished with some real and conscious effort on the part of the student body.

**Sharon Sanders:** I would like to see the honor system established in the dorms for upper classmen. To prove our maturity, I think we have to be given a chance. After all, maturity is shown through our consideration of others. This is the basis of the honor system.

**Norris Teague:** I think it would be a good idea to fix the door at the south end of the administration building for the use of two-way traf-

fic and take the inside door off the hinges.

**Barbara Marczilla:** I think they should either fix up 49er's Park or get rid of it. Maybe they could make it into a parking lot. I also wish they would get rid of the junk heap behind the gym.

**Bruce Vogel:** They should put lights on the tennis courts so they can play after the sun goes down.

**Emma Feters:** I think they should have Senior Trip in the fall because there are too many demands on your money in the spring.

**Brenda Flannery:** I would like to see them put a stereo in Nesbitt Hall. Many times there is nothing to do and it would be nice to be able to relax and listen to music.

**Willie Dishon:** Dead weekends! There are enough things going on that they could have something every weekend. Some of the things that are on week nights could be held on weekend nights. Many of the society activities could be at such a time when the majority of students could be there. By playing these things off when few of the members of the societies concerned are able to attend you lose the effect of the society spirit. Another thing along that line is the development of class spirit. I think there's such a thing as Christian sportsmanship with a little spirit.

**Jan Bearinger:** I'd like to have a combined program between the residences and talk about etiquette, how to act at formal parties, and all points of etiquette to make fellas and girls feel at ease. I feel that many don't date because they feel ill at ease about certain forms of etiquette and rather than take the chance of embarrassment, they just don't date.

**Eunie Herrmann:** I think that when a freshman comes to school before they enroll they should have an appointment to see a counselor who will tell them all about Olivet that is not written in the catalog. Such things as, what you might expect regarding roommates, the importance of setting good patterns the first year, learning to schedule time properly, encouraging them to see residence counselors about personal matters, learning to have confidence in themselves and learning to make decisions for themselves.

**Bill Scott:** On the school activities I think that there could be more parties on weekends where there wouldn't be dating so students could become better acquainted. On the religion side I think there should be more activities where the student body itself could go off campus. Too many of the students are wrapped up with their own problems. If they could get a better perspective of the problems in Kankakeeland, it would get their minds off of themselves and would strengthen them. I think Preston's platform in which he says that the groups will be working together, will help solve this.

## Sports Slants

by Holland Lewis

The 1960-61 sporting season is now history, and a fine history indeed. Under the able direction of Coach C. W. Ward, we've seen an outstanding intramural season with some 300 athletes taking part.

Again this year we have viewed some outstanding athletes, and I only wish that these fellows could have the opportunity to display their true talent as a "team" with an enthusiastic student body behind them.

It has been my recent privilege to visit the campus of our sister college in Quincy, Mass., Eastern Nazarene College, and while visiting there, I was further privileged to spend some time talking with Billie Wilhoite, outstanding member of the Crusader intercollegiate basketball team. During our conversation, without my asking, Bill began to speak of the wonderful way in which intercollegiate athletics could unite the student body of a college.

This testimonial came from a clean-cut Christian athlete and it tells me that there is a possible place for intercollegiate athletics in the Christian college. My days as a student at Olivet are short, but my concern for her future is not.

It is my desire (and I'm sure it's that of others) that the day will come when the Olivet athlete will have ample opportunity for Christian witness to what is now, a seemingly distant world.

# Kappa Wins Field Day, Sigma Second; Three Records Fall

Records falling on every hand, the cindermen of Kappa etched out a 41½ to 41 victory over the Sigma track team to cop the 1961 Olivet Intramural Field Day. Paced by John Smith and Keith Powell, the Kappa team took three firsts and placed in all but one event to top the field of six teams.

Individual honors went to Sigma's Terry Arnholt who took two firsts; in the broad-jump with a leap of 18'1", and in the 220 with a time of :24.4. Placing also in the pole vault and the 100 yard dash, he racked up a total of 14½ pts.

Beta's Bob Senior tied with Keith Powell at 13 pts. to tie for second. Bob kept Beta in the meet, getting all but two of their total points. Powell went 10'6" to wrap up the pole vault event, besides taking a second in the broad jump.

Tragedy befell the Sigma thinclads when on the last turn of the 440 yd. dash, the meet favorite, Ron Fightmaster, collapsed. Against doctor's orders not to run for a year, Ron, in his determination ran on his infected leg to win the 100 yd. dash with a :10.8 clocking, but was unable to complete his second event.

Jumping in his unorthodox, but smooth style, Gamma's Paul Mayfield outclassed a field of eight jumpers to take the high jump event, with a record breaking height of 5' 10". This topped the old mark of 5' 9½" set in 1950.

In the mile relay, a speedy Kappa team, composed of Smith, Tony Spatuzzi, Dave Halverson, and Vern Schwin,

Gamma's Paul Mayfield clears the bar at 5' 10" for a new high jump record, eclipsing the old mark of 5' 9½" set by Wayne Bohne in 1950.

broke the old record set by the Indians in 1949, with a time of 3:44.8.

Dale Reedy broke his own record in the half mile run with a time of 2:06.8, topping his 1959 mark of 2:08.4.

The old mile run mark of 4:54.2, set in 1956, was broken by Sigma's John McKnight who calmly jogged the four laps in 4:48.

Ed Zeigler of Sigma society tossed the shot 39'10½" to take a first in the shot put event while the discus honors went to Delta's Jim Williams who hurled it 105'7".

In total team points Delta placed third with 33½ pts., Gamma fourth with 20½, while Beta and Zeta finished fifth and sixth, respectively.

## Sigma Takes Tennis Tourney; Mathias Is Singles Victor

Kappa and Sigma dominated the tennis courts this year as Harry Fulton, Frank Borders and George Baker of Kappa, Ed Sheckler and Larry Mathias of Sigma and Pat Dickey, winner of the women's singles for Delta, earned letters.

In the men's singles Harry Fulton won a hard fought match 0-6, 9-7, 9-7, from Roy Smith to gain the semi-final round. In the semi-final round Larry Mathias defeated George Baker and Ed Sheckler defeated Harry Fulton. In the finals Mathias downed Sheckler by the scores of 6-3, 6-2, 6-2 to win the championship for Sigma.

In the men's doubles, the Kappa team of Baker and Hartness were defeated by Sigma's Mathias and Sheckler and Sigma's Roy Smith and John McKnight were defeated by Kappa's Borders and Fulton in the semi-final round. In the finals, the brother-in-law team of Larry Mathias and Ed Sheckler defeated Kappa's Fulton and Borders 6-1, 6-0, 6-1 to win the championship.

Ron Fightmaster is shown hitting the tape for 1st place in the 100 yd. dash. He was clocked at 10.8.

son, Elwin Poe, Beta; Tony Spatuzzi, Kappa; Charles Stallions, Dee Clay, and Herb Stevens, Zeta.

### FLASH

May 17th: Coach Ward and the athletic council met this afternoon and selected the following men as members of the 1961 softball All-star team: pitcher, John Haugh, Beta; catcher, Wayne Hope-well, Beta; 1st base, Dick Felix, Gamma; 2nd base, Duane Dunham, Beta; 3rd base, Harry Fulton, Kappa; short-stop, Gil Eckhoff, Zeta; out-fielders, Chuck Beals, Delta; Obie Coomer, Gamma; Bud Hoovler, Sigma, and Larry Hendricker, Sigma; utility in-fielder, Jerry Riddle, Sigma.

Pole Vault: (1) Keith Powell, K, 10'6"; (2) Holland Lewis, D; Tom Thompson, G (tie). Shot Put: (1) Ed Zeigler, S, 39'10½"; (2) Jim Williams, D; (3) Larry Knight, Z.

Broad Jump: (1) Terry Arnholt, S, 18'1"; (2) Keith Powell, K; (3) Vern Schwin, K. High Jump: (1) Paul Mayfield, G, 5'10"; (2) Bob Senior, B; (3) Keith Powell, K.

Discus: (1) Jim Williams, D, 105'1"; (2) Ron Thill, D; (3) Bob Senior, B.

100 Yard Dash: (1) Ron

## Beta Society Swimming Champs

There are to be eight letters awarded in swimming this year. Twelve points were needed to letter and Don James was the only swimmer to get enough points in the first meet. The records set by Leon James are still standing and were not in danger at any time.

Those lettering in swimming are: Donald James, George Dunn, Tom Thomp-

## Ladies' Sports Journal

by Evelyn Dorsey

Miss Wanda Rhodes and Miss Martha Hopkins held a symposium May 6, here, for students interested in physical education as a vocation. Miss Rhodes is a graduate of Bethany and has taught at Northwest Nazarene College for the past eight years. She is presently at Indiana University working towards a doctor's degree in phys. ed. Miss Hopkins is a graduate of Nampa and will receive her masters degree in phys. ed. from Indiana U. this month.

While they were here, they led a discussion of the problems that phys. ed. teachers face in public schools, job opportunities in phys. ed. other than teaching, and the pro's and con's of inter-scholastic sports.

Volley tennis enticed approximately 75 girls to participate. Gamma and Beta tied for first. Field Day wound up the sports year, with letters, trophies, and other awards being presented at the "O" Club banquet.

I would like to express sincere appreciation and gratitude to Mrs. Donoho, our phys. ed. instructor, for the tremendously important boost she has given women's athletics this year. I think everyone who participated realizes the vital part she has played in our activities. Athletics this year have meant more to me and to others because of her enthusiastic interest in doing the best for us. On behalf of those women I represent, I give sincere thanks to her for all her hard work in attempting to make our athletics the best possible for us.

John Smith contributes to the Kappa cause as he takes first in the 440 in a 55.8 timing.

### Kappa Wins . . .

## Zeta Captures Women's Field Day, Elouise Miller Stars

Carolyn Rowe takes first place in this heat of the 100 yd. dash for women. J. Cole is second and C. Schafer is third.

Taking four firsts and two seconds, Elouise Miller ran up a 22 1/4 point total to lead Zeta's track team to a victory in the women's division of Olivet's Intramural Field Day. Piling up 37 team points the Zeta girls outdistanced the second place Kappa team by 15 points.

Runner-up to Miller in the individual bracket was Norma Rawlings, also of Zeta, totaling up 13 1/4 points with firsts in the fifty and one hundred yard dashes.

Third in team totals were the cinderwomen of Delta with 14 points while Beta finished fourth only a half point behind. Gamma and Sigma placed in the last two spots.

### WOMEN'S

#### FIELD DAY RESULTS

50 Yard Dash: (1) N. Rawlings (Z), (2) E. Miller (Z) (tie) P. Oliver (B), (3) C. Rowe (K), (4) P. Dickey (D), time: 7.2.

100 yard dash: (1) N. Rawlings (Z), (tie) C. Rowe (K), (2) E. Miller (Z), (3) J. Cole (B), (4) P. Dorsett (K), time: 14:0.

Softball throw: (1) E. Miller (Z) (2) P. Oliver (B), (3) E. Pease (D), (4) E. Dorsey (K), (5) L. Mallon (G), distance: 142'.

Running high jump: (1) E. Miller (Z), (tie) M. Bright (K), (2) P. Dickey (D), (3) P. Dorsett (K), (tie) C. Schafer (D), height: 3'11".

Running broad jump: (1) E. Miller (Z), (2) P. Oliver (B), (3) P. Dickey (D), (4) P. Dorsey (K), (5) N. Rawlings (Z), jump: 12 6 1/2."

440 yard relay: (1) Zeta (Miller Rawlings, Stray, Shifley); (2) Kappa, (Bright, Edgerly, Dorsey, Rowe); (3) Delta (Pease, Shafer, Richards, Raney), time: 1:7.1.

## Intramural Program Is Big Success

by Doug Mason

Today, May 16, 1961, was just another example why this years intramural program can be considered a success. In the "Field Day" events, over 40 different men participated to represent their societies.

In this years program, which was changed from the original three societies to six societies with the purpose of creating more and better participation, an increase of 25 to 30 per cent participation has been noted.

Many of the athletes have expressed their opinion to the extent that competition has been much keener this year. This was proven in the Field Day competition.

During the course of this year over 175 men athletes have participated in one or more sporting events. In the four major sports, football, baseball, basketball, and softball, over 150 athletes participated. This does not include events such as swimming,

Team Scores (totals): (1) Zeta, 36 1/2; (2) Kappa, 22; (3) Delta, 14; (4) Beta, 13 1/2; (5) Gamma, 1; (6) Sigma, 0.

Individual Records: E. Miller, 22 1/4; N. Rawlings, 13 1/4; P. Oliver, 11 1/2; C. Rowe, 7 1/2; P. Dickey, 6; M. Bright, 5 1/2; P. Dorsey, 5.

## Beta Grabs Softball Crown; President's Cup

### HAUGH LEADS TO PERFECT SEASON

Closing out the '61 Intramural Softball season in fine style, a flashy Beta nine defeated Delta 9-6 to give them a 5-0 record, and an automatic first place.

Behind the hurling of ace pitcher, John Haugh, Beta outscored their opponents 44-17 in overall points. Haugh got credit for two, one hit ball games, a shut out against Kappa and a 5-3 victory over Gamma. In overall performance he allowed only 21 hits. The other half of the battery was Wayne Hopewell who coached and batted at a .283 clip, besides handling the coaching responsibility.

Little Duane Dunham, former Detroit Junior Red Wing, was the sparkplug of the

cross-country, tennis, etc. In these events there were about 25 participants.

Society-wise, Delta had 35 participants. Sigma had 34, Kappa was third with 31, Zeta had 29, while Gamma and Beta had the least participation with 26 and 19, respectively.

In light of the facts that are already presented and in the following table, one can safely say that this years Intramural program has been an overwhelming success.

Societies	B	Z	K	D	G	S
Total	19	27	31	35	26	34
Base.B.	12	12*	13	12	12	14

### Professor Appreciation Dept.

Before I leave these hallowed halls I should like to express my appreciation to the professor who has won my admiration, along with that of many other students as being of the highest calibre. To me he has been the example of academic excellence; an inspiration in his theological soundness, and he has probably given the most thought-provoking and challenging lectures that I have ever heard.

This professor is Dr. Carl Bangs.

I have only one regret concerning Dr. Bangs' classes; that is, I was not a good student and did not take full advantage of his excellent teaching.

That time of the year has come when all those seniors who have fought a good fight and those who have just fought will be turned loose to fill their places in the world and learn how much there is yet to be learned.

All that there is left for me to say is: You receive from college what you put into it, and the more you put, the more you receive. That is a hard lesson to learn.

### Alumni Spotlight . . .

(Continued from Page Three)

as he shall never regret it. The dedicated Christian professors and students with like desires made an outstanding impression on my life."

Since graduating, Mr. Keys has worked for an architectural and engineering firm of Berger, Kelley, Unteed and Assoc., in Champaign, moving up to an associate of the firm when he left in 1955. In 1955 he was an associate partner with the firm of W. Harold Tanner of Villa Park. In 1956, he formed an architectural and engineering firm with H. James Hestrup under the name of Keys and Hestrup. The firm specializes in churches, Sunday schools, apartments, and shopping centers.

Among several of the Nazarene churches which he has helped design are First Church of Chicago, addition of College Church, First Church of Rockford, East Side of Fort Wayne, Indiana, and First Church of Shelbyville, Indiana.

"I am extremely proud that my firm was selected as architects to design and build Olivet's new 200 men's residence hall."

Mr. Keys and his wife, Alice, were married in 1947 and have two children, Brenda 6½ and Stuart 4½.

"I will never forget Olivet and what it has meant to me in my spiritual life. I urge young people to come to Olivet for an education with a Christian purpose."

### Let's Explore . . .

(Continued from Page Two)

Here are the points of emphasis in the "failure plan." First, Show that everything possible had been done to provide for the safety of the spaceman. Coupled with the emphasis of the nation's concern for the individual.

Second, let the world know and understand that Shepard fully realized the risk he was taking, but that he believed in the program and in the advancement of science.

Third, and the most important in my opinion, was "the mere fact the United States was willing to attempt a perilous space shot in the full glare of world publicity." This point could stand a full contrast between the freedom of information in the U.S. with the secrecy in Russia.

Each or all of these points are too important to stay in the files and collect dust. We should emphasize them even though the space shot was successful. The best time for their publication would have been prior to the shot, but that is impossible now.

Another school year has come and gone (almost), and I wish to thank my readers and the editor for the many helpful suggestions and criticisms and comments. It helped to make the writing much more enjoyable.

God bless you, have a good summer, and may our country live in peace.

### Purkiser to . . .

(Continued from Page One)

of his books and articles in religious journals. Among his books are: **Security — The True and the False; Conflict- ing Concepts of Holiness, and Know Your Old Testament.**

Receiving his bachelor's degree from Pasadena College, Purkiser did graduate work at the University of California where he received the doctor of philosophy degree.

Purkiser is an ordained elder in the Church, has been a pastor at seven Nazarene churches, and presently resides in Kansas City, Mo.

## Bangs to Teach at Methodist Seminary In Fall

Dr. and Mrs. Carl Bangs and family will move to Kansas City, Mo., this summer where Dr. Bangs will take the position of associate professor of historical theology at the National Methodist Seminary.

Bangs, who has been associate professor of religion and philosophy here since 1953, will teach here through Olivet's summer session and begin his work at National in the fall.

Bangs will be the first Nazarene to serve with full faculty status at a Methodist seminary. He will teach courses in the history of Christian thought, systematic theology and Wesleyan Arminianism, his area of specialization.

Working with Bangs will be Dr. Dale Dunlap and Dr. Lycurgus Starkey, both specialists in John Wesley and early Methodism. The three will work as a team to develop this special historical emphasis at the seminary.

Bangs received his A.B. from Pasadena College, B.D. from the Nazarene Theologi-

### Alumni Day . . .

(Continued from Page One)

the Board of Directors will report to the association members on the plans and activities for the coming year. Election of officers for the new year will also take place at this meeting.

Climaxing the day's activities will be a banquet in Miller Dining Hall. Rev. Fred Hawk, '33, is to be the featured speaker. At this time the new officers will be introduced, and there will be the presentation of the "O" awards.

Alumni who will be registering for the day will do so in Burke Administration Building, room 117, at which time coffee will be served to them.

### Business Office . . .

(Continued from Page Three)

properly force-ventilated.

The finished products of the salad and baking departments will be elevated to the present serving area either before or during the meal. These products will be stored in a refrigerator or in a warming oven until needed.

The moving of these two operations to the new area will allow the installation of additional steam kettles and the moving of the dishwasher farther away from the window to provide more space for receiving the trays after meals. The Mural Room will be used as it is at the present time.

Making these kitchen alterations will cost less than one-third as much as an additional building and will still give approximately as much floor space for food service.

These improvements will be completed and ready for use at the opening of the fall semester in September 1961.

Food service for the summer school will be provided through the facilities of the Universe.

cal Seminary, and the Ph.D. from the University of Chicago.

## Snowbarger Named Coordinator for North Central Study

Dean Snowbarger was recently honored by being named as a coordinator of the North Central Association Study in Liberal Arts Education.

Dr. Snowbarger has had considerable experience to qualify him for this position. He attended a workshop of the organization in 1953 at the University of Chicago, and he is chairman of the local steering committee.

He is only one of a team of men who visit college campuses to further the work of the association. The visit of a coordinator to a campus is an event which can have important effects on that college's program. These persons, all of whom are teachers in liberal arts colleges, serve an important function in carrying ideas from one institution to another and in helping a local study group formulate its problem and decide upon methods for attacking it.

## YOUR PREXY'S VOICE

by Darel Grothaus

### WHAT ARE WE DOING?

This question is directed to everyone who considers himself an Olivetian, but more inclusive, a Christian! Our generation finds itself in a world that is in a "mess." (Try reading the newspapers if you don't believe me!) We are in the world, whether we'll admit it or not, and since this is true, we are faced with two plans of action. (1) We can come out of our cells of monastic holiness and let God expand our vision, or (2) We can continue to build the walls of provincialism and conservatism around the Gospel.

Some seem to think that the church should conserve the truth, protect its young people, and refuse to ask questions which make it examine its methods. To these people we simply say, we believe that the truth in Jesus Christ is strong enough to withstand any challenge, and if you do not have the confidence that the truth can support you, then perhaps your faith needs strengthening.

We need a faith in the resurrected Christ, who has completely defeated the power of sin. We are not interested in retreating from the power of sin whether it be expressed by pseudo-intellectualism, race prejudice, communism, materialism or any other false doctrine. We are trusting in the power that raised Christ from the dead.

We get terribly stirred in great ecclesiastical convocations when we are challenged with the thought that the

church possesses the answer as it is found in Jesus Christ. (Perhaps it is more correct to say that the answer possesses us.) We say that the world is dying and the only cure is the Gospel. The only problem is that we are not getting the cure to the patient. Let us get into the thick of the battle and stop our worrying about people's opinions (even in the church) and become concerned about what God thinks! God thinks that we should be out in the world doing just what Christ did—offering hope. (John 17:18) Christ was berated for associating with publicans, sinners, prostitutes and drunkards, but we have such a pious reputation to protect, and are so reluctant to get a few demerits on our record that we are afraid to do what Christ did! The only way to help sinners is to get next to them and express Jesus' compassion.

**Where are we going from here?** I don't have all of the answers, but I would like to make three suggestions that can give us some direction.

(1) We must begin reading the Bible. Unfortunately, some believe that the Bible is a dead book consisting of propositions which tells them how to keep rules. I reject this. The Scripture witnesses to a living God, and proclaims that Christ is the answer for all of our difficulties.

For example, one of the most pressing problems of our day is the race question. If you want to know what this has to do with Jesus Christ and his church, study the 12th chapter of I Corinthians. This passage tells us that the Spirit has baptized both Jew and Greek into the body of Christ, and it might very well say that the Spirit can baptize both white and black into Christ's body.

(2) We need to read contemporary literature which serves as an index to modern man, his problems and what he is thinking.

(3) Go to the core of the biggest problem you can find, express your concern, confess your human inability to offer a solution, and begin to seek God's answer.

My first chapel address this year was entitled *Collegiate Clods or Fools for Christ*. A fool for Christ is one who believes in the power of the resurrection even though he is surrounded by insurmountable difficulties and sin is raging on every hand. This "fool" believes that the Spirit of holiness who raised Jesus from the dead can resurrect the sin laden person, the unsolvable social problems, and a decadent civilization to new life in Christ Jesus. Are you willing to be a fool for Jesus Christ?

### Christian Concepts . . .

(Continued from Page Two)

close to the living God; and (3) Genuine physicians of the soul, who have real concern for building a community of believers, who study human nature, and attempt to help redeem it under the living God.

Other highlights gleaned from other speakers were: the picturing of the Church as a people who belong to God, called to be new beings (old things passed away); the observation that theology takes place at an intersection of three lines—one back in history to Christ; another horizontal, symbolical of the dialogue with other disciplines; and the third, vertical, worship and personal prayer; and the statement that since Christ operated in the center of life, Christian theology must operate where human problems are greatest. "You only have a sermon where the needs of man and the power of God meet."

I would be the last to accept this emphasis completely. It may be social gospel in disguise, or it may be overly optimistic as to the possibilities of redeeming man. But one thing can't be denied—there is a concern to confront men and the problems of men with the power of God in Jesus Christ. And there is recognition that in order to do this the Church must be awake to what is going on in the world today, and then preach Christ in ways that are Biblical, yet understandable. And not only preach, but live as a redeemed people, showing the power of God.

As I prepare to leave Olivet Nazarene College, I feel that I can safely tell our leaders and the older generation that there are scores of young people here, in other Nazarene Colleges, and in hundreds of other places who are vitally interested in knowing and showing the power of God to save and make a life new and holy. Pray for us, be patient as we seek to become established in the faith, and help us as we face new problems, armed with the old, old story.

Finally, thank you old Olivet! You have a very dear spot in our hearts as we leave to seek ways to serve the Christ you gave first part.

### Changes for Fire Protection In Ad Building

The summer program of building improvements will include the changing of the doors and transoms in the stairways of the administration building to provide one-hour fire protection. All the doors will open with the traffic; for instance, the doors of the second floor hallway will open into the stairway. This allows for more efficient moving of people in case of fire.

The transoms, the widows above the doors, will be changed from the glass windows with small wooden cross-pieces to wire glass. This type of glass is being used in the new Sunday School addition at College Church. This glass will withstand one hour of fire heat and will not fall out when broken.

### EDITORIAL COMMENT . . .

Wake Up . . . (Continued from Page Two)

opments in the various disciplines, and unless the Church makes an all-out effort in encouraging its young people to broaden their horizons intellectually, how can we expect the academic conscious world to be receptive of us as Christians. The Church encourages young people to become missionaries. Why doesn't the Church literally urge us to enter for Christ the wide-open fields of science, politics, psychology, etc. One way to do this is to make us keenly aware of the various theories that are anti-God, anti-Christ. And we can only be truly effective when we are aware of these.

I am afraid that too many of us (1) lack openmindedness and (2) lack initiative. It is much easier to invite a fellow church member to the altar during a revival service than it is to discuss Christ crucified with the atheist that works next to us. It is much easier to accept the statement, "Communism is not good," and admit that it poses a problem, than it is to plan an open discussion with an authority on the subject to intelligently consider types of problems it poses to humanity in general and its affect on the mission of the Church—evangelism.

I am encouraged to see that Olivet students are beginning to overcome the apathy that has so long plagued them. As a layman who loves the Church, its educational institutions, and the Christ they stand for, I rejoice that up and coming ecclesiastical leadership will include individuals who realize that the task that Jesus has given us is much more involved and consists of deeper roots than "shining lights on Sunday night." I rejoice that someday laymen and ministers will be encouraged to acquaint themselves with liberal and modern thought so that they might more effectively fight the good fight of faith.

"For here we learned to know of truth and truth will make us free." We can fully know truth only when we are completely acquainted with that that is false.

### An Expanding Matter . . . (Continued from Page Two)

tion to our generation or are we content to be a part of the past during our own lifetime?

Again, in the area of the Christian life we face a tremendous challenge. Most college students have no more than a text-book knowledge of the Christian life; the dynamic of science has more appeal than the dynamite of the gospel. Instead of the gospel arresting them, they have the audacity to challenge the gospel. And why should they not sneer? Precepts they learn and practice they observe are often incongruous. The same congregation that says "amen" to message on "love thy neighbor" walks out the front door of the church and prevents this neighbor from using the same sidewalk. As man soars out into space, they ask what has happened to the Biblical picture of a finite man. They wonder at the power of the Christian message that fell so easily in China after 200 years. They talk of the diminishing ratio of Christians to the total world population. They talk of the retreat of both Christianity and Communism in Africa in the face of the onrushing Moslems. They talk of creating new life in a test tube—and what if they should? These are live issues and not easily answered.

There are answers, however. First of all, **Christ is the answer.** In Him we find **The Way** and ways. His message has not failed but in too many cases His messengers have. Sometimes His disciples have been so ingrown they could not see the need; take the Puritans attitude toward the American Indians as a case in point; or do we need to go back that far for an example? Sometimes we have cared more about preserving our methods than preaching His message.

Sometimes we have protected the truth so much that it was hidden from those who needed it most. Sometimes we have been so engrossed in "coming out from among them" that we failed to identify ourselves with the pressing need in sympathy and Christian understanding. Sometimes we have been so selfishly pious that we forgot to be spiritually practical. The fact is this: Christ on the inside does not destroy all our outward defects. With His help we are obliged to expand to meet these problems. He will use us, but we must be usable. He has the answer, but we must articulate it through deed and word so that it may be understood in our generation.

### Students With . . .

(Continued from Page Three)

a senior who shows independent and creative work of high quality in his major field. The study may cover material of individual courses, cut across course lines, or include subject matter and procedures not offered in the usual courses of the department. When recommended by the head of the department in which the student wishes to do honors work. A plan of the work to be pursued shall be forwarded, with the recommendation, for the approval of the Admissions and Scholarship Committee. To be eligible for consideration for honors work, a student should have a 3.4 grade point average in his major field. If his work is of high quality, he will be granted four hours of credit toward graduation. If he passes a comprehensive examination in his major field with special emphasis on his honors pro-

#### OUR CONSTANT HOPE

by Regina Evans

Life is filled with many problems  
Sometimes so hard to bear.  
We often stagger 'neath the load,  
And wonder, "Who does care?"  
Then we see the Christ of Calvary  
As He stands with outstretched arms  
To comfort, solace, and relieve  
The burden and the harm—  
That seemed to pull us downward  
Until hope was well nigh spent.  
But we see a glimpse of Jesus,  
God's only Son He sent  
To lift the load and give us  
peace—  
A hope beyond today;  
That we may someday dwell with  
Him,  
And live content alway.

ject, he will be graduated with departmental honors, this to be indicated on the commencement program.

Students working on departmental honors are Wes Robbins, Darel Grothaus and Lowell Thomas.

### Ask Your Pastor

by Forrest W. Nash

The mark of our education is the ability to bring knowledge to a situation which resolves in an adequate answer and solution. Likewise, the mark of a spiritual life is seen in one's response to a moral problem which in turn demands an attitude and an answer. The world is giving half-baked answers to vital spiritual issues. You see the world seeks to answer problems the resolution of which is beyond the human scope. This is the reason for Calvary. This is the reason for redeeming grace.

God answers the unanswerable through His Son, Jesus Christ. From everyone who faces a moral choice comes either the voice of the indwelling Christ or the voice of human wisdom. There is no doubt about the Apostle Paul's position when he said, "I can do all things through Christ which strengtheneth me."

And Moses of old chose rather to suffer affliction with the people of God than to enjoy the pleasures of Sin for a season esteeming the reproach of Christ greater riches than the treasures of Egypt (the treasures of this world.)

There need be no doubt about every ONC student who goes out from these halls.
